Forbo	Eurocoll
Wulff	Ultrastrong Suprastrong Multistrong

The advised glues must be strictly applied according to the conditions of the glue suppliers. **utilizzare le colle come da indicazioni del produttore**

Glues not mentioned in the above overview are not tested.
Only the listed glues are guaranteed. **utilizzare solo le colle qui riportate**

Glues which have to be rolled are not advised because of the less fixing power and therefore more chance on dimensional size changes.

Use only fiber reinforced glues, out of the above overview, behind big windows through which a lot of sunlight is shining.
